Sparks, NV 89436

Comcast's blatant and deceptive blocking of peer-to-peer communications is exactly the problem millions of Americans have warned would occur without Net Neutrality protections. The FCC must take serious and immediate action to put an abrupt end to this harmful practice and prevent other Internet service providers from following Comcast's example of discriminating against the free flow of online information. The Internet is a vital engine for economic growth, civic participation and free speech. We simply can't allow corporate gatekeepers to smother these democratic communications by discriminating against new technologies, secretly interfering with Internet traffic and stifling innovation.

Dear FCC: As the regulatory body commissioned to protect the airwaves and other means of public communication, it is crucial that you act to prevent Comcast and other corporations from infringing on these rights for their own profit or convenience. Comcast's blatant and deceptive blocking of peer-to-peer communications is exactly the problem millions of Americans have warned would occur without Net Neutrality protections. The FCC must take serious and immediate action to put an abrupt end to this harmful practice and prevent other Internet service providers from following Comcast's example of discriminating against the free flow of online information. The Internet is a vital engine for economic growth, civic participation and free speech. We simply can't allow corporate gatekeepers to smother these democratic communications by discriminating against new technologies, secretly interfering with Internet traffic and stifling innovation. Your action in this matter is essential to preserving the free flow of information essential to our democracy.

Americans need Net Neutrality protections. Comcast's recent "stacking" of the public hearing on their practices should demonstrate the lengths to which they are willing to go to stifle open public debate. Just imagine a company with that mentality controlling the communications of millions of Americans who use their network. We should no more allow service providers to favor particular sites and technologies than we should allow the phone company to determine who we can call.

Las Vegas, NV 89117

Comcast's blatant and deceptive blocking of peer-to-peer communications is exactly the problem millions of Americans have warned would occur without Net Neutrality protections. The FCC must take serious and immediate action to put an abrupt end to this harmful practice and prevent other Internet service providers from following Comcast's example of discriminating against the free flow of online information. The Internet is a vital engine for economic growth, civic participation and free speech. We simply can't allow corporate gatekeepers to smother these democratic communications by discriminating against new technologies, secretly interfering with Internet traffic and stifling innovation.

Corporations control way too much what people are exposed to, smothering the truth, and it's time to crack down on this violation of free speech!

Cornel Ormsby
5055 Jeffreys St. Apt. E210
Las Vegas, NV 89119

Shame on Comcast for their intrusive and overweening policy of communications blocking, and shame on the FCC for allowing Comcast to make a mockery of public hearings on this issue by filling the venue with their own employees. As an American, I am greatly disappointed by the FCC regarding its lack of concern about this matter. I urge its members to give serious, genuine attention to the recent actions of Comcast, and take appropriate action.

North Las Vegas, NV 89032

Comcast's blatant and deceptive blocking of peer-to-peer communications is exactly the problem millions of Americans have warned would occur without Net Neutrality protections. The FCC must take serious and immediate action to put an abrupt end to this harmful practice and prevent other Internet service providers from following Comcast's example of discriminating against the free flow of online information. The Internet is a vital engine for economic growth, civic participation and free speech. We simply can't allow corporate gatekeepers to smother these democratic communications by discriminating against new technologies, secretly interfering with Internet traffic and stifling innovation.

Comcast's blatant and deceptive blocking of peer-to-peer communications is exactly the problem millions of Americans have warned would occur without Net Neutrality protections. The FCC must take serious and immediate action to put an abrupt end to this harmful practice and prevent other Internet service providers from following Comcast's example of discriminating against the free flow of online information. The Internet is a vital engine for economic growth, civic participation and free speech. We simply can't allow corporate gatekeepers to smother these democratic communications by discriminating against new technologies, secretly interfering with Internet traffic and stifling innovation.
